

2022 Comprehensive Coding Education Program

This comprehensive course is a combination of live and on-demand web classes designed for coders and billers. CCEP provides preparation for national coding certification. It is an excellent educational opportunity even for those not seeking national certification. Classes encompass coding, documentation and compliance education and provide limited instruction in medical terminology and anatomy related to coding assignments. Also emphasized is the use of references, coding tools, payer/reimbursement issues, as well as compliance and ethics considerations.

Class starts Tuesday, February 8, 2022

Intended Audience

Anyone preparing for medical coding certification exams (CCS-P through AHIMA or CPC through AAPC)
